Voting: What Has Changed, What Hasn't, & Why

Research Bibliography

Caltech/MIT Voting Technology Project

January 8, 2013

Since the origins of the Caltech/MIT Voting Technology Project in the fall of 2000, there has been an explosion of research and analysis on election administration and voting technology. As we worked throughout 2012 on our most recent study, *Voting: What Has Changed, What Hasn't, & What Needs Improvement*, we found many more research studies. In this research bibliography, we present the research literature that we have found; future revisions of this research bibliography will update this list.

We thank the Carnegie Corporation of New York for their support of this research effort. We also thank Gloria Bain and Jaclyn R. Kimble for their help compiling and editing this bibliography.
